Metropolitan Bakersfield
Transportation Impact Fee

ANNUAL UPDATE OF CAPITAL IMPROVEMENT PLAN AND REVIEW OF PUBLIC INFORMATION FOR METROPOLITAN BAKERSFIELD TRANSPORTATION IMPACT FEE PROGRAM (All S.D.s)
(Fiscal Impact: None)

In April 1992, your Board adopted a Transportation Impact Fee program to fund improvements to the Metropolitan Bakersfield transportation system necessary to accommodate future growth. In January 1997, your Board adopted Phase II of this program, which was designed to fund more projects and eliminate the need for developers to provide transportation impact studies for most projects. In September 2003, your Board adopted Phase III of this program, the intent of which is to encourage in-fill development by creating Core and Non-Core areas within the Metropolitan Bakersfield General Plan limits, each with its own fee structure. Phase IV, adopted by your Board in April 2009, implemented a regional program, and projects development through 2035.

Government Code Section 66002 requires your Board to annually update the Capital Improvement Plan by Resolution. Submitted with this report is a copy of the Phase IV Metropolitan Bakersfield Transportation Impact Fee Program (Exhibit "B"). All projects listed on the attached Exhibit are necessary and important to the transportation and circulation plan.

Government Code Section 66006(b) requires that, within 180 days after the last day of each fiscal year, Kern County Public Works Department make available to the public the following information about the Transportation Impact Fee Program:

- The annual accounting of the beginning and ending balance for the fiscal year
- The fees, interest and other income
- The amount of expenditure per public improvement

On August 31, 2026, this information was made available to the public by the Public Works Department. The following reconciliation covers the period from July 1, 2025, to June 30, 2026. A fiscal summary by month is attached as Exhibit "A".

Core Area Projects

Metropolitan Bakersfield Core Area funds will be used for the following projects:

- Signal – Bernard Street at Haley Street

There were no Capital Projects completed during the 2025-2026 reporting period.

Non-Core Area Projects

The following projects were completed during the 2025-2026 reporting period. Funding was done by the developer and is eligible for reimbursement from the Metropolitan Bakersfield Non-Core Transportation Impact Fees and will be reflected on the financial accounting for Fiscal year 2025-2026:

- Tract Map No. 6163 – Heath Road

Metropolitan Bakersfield Non-Core Area funds will be used for the following projects:

- Signal – Rosedale Highway and Nord Avenue
- Add Lanes – Fairfax Road from Redbank Road to Panama Lane
- Add Lanes – Palm, East of Renfro

At this time the County does not have any credit agreements with developers for improvements that are listed on the facilities list to be completed. During this period the County did reimburse a developer in the amount of $104,113; and

The Public Works Department has determined that it can be seen with certainty that there is no possibility that these proceedings may have a significant effect on the environment, and that, therefore, under the provisions of Section 15061(b)(3) of the State CEQA Guidelines, such activity is not covered by the requirements set forth in the California Environmental Quality Act.

Therefore, IT IS RECOMMENDED that your Board 1) open hearing, receive public comment on public information, close hearing; 2) make finding that the project is exempt from further CEQA review per Section 15061(b)(3) of the State CEQA Guidelines; 3) adopt Resolution updating and confirming the Capital Improvement Plan; and 4) receive and file this report.

Sincerely,

Joshua Champlin
Director
