Attention: Caltrans, California Highway Patrol, Kern County Board of Supervisors

I observed a brilliant use of assists along this dangerous downslope Tejon to Grapevine on the I-5, where lanes are restricted to 3 and there are no safe pull outs for truckers experiencing hot brakes and out of control.

The **brilliant CHP** slowed all the big rigs down to 35 mph by pacing the big rigs.

CHP can ticket speeders going south on the I-5, make a loop, ticket speeders heading north on the I-5 into this dangerous pass, then pace all the truckers at 35 miles per hour, make another loop and repeat again and so forth. **Brilliant.**

What are you willing or able to do?

What way can you help improve this freeway stretch causing us all much difficulty?

How should the community unite to cause change and a positive outcome? .

Sincerely,

Linda Robredo, 3429 Los Padres Dr, Frazier Park, CA 93225
